The Professional Spiritually Informed Nurse

The School of Professional Specialty Certificate Programs

The **CAPSTONE Professional Specialty Certificate in Spiritual Care Nursing** is designed specifically for nurses and hospital staff, aiming to enhance their understanding and engagement with the spiritual aspects of patient care. This focused program enables healthcare professionals to refine their skills in key areas: recognizing the importance of understanding patients' spirituality in healthcare; advancing from basic listening to acquiring foundational counseling skills; providing specialized spiritual care for the aging population; and empowering professionals to excel in the practice of spiritual care. Through this track, participants are equipped with the tools and knowledge necessary to integrate spiritual care into their daily practice, thereby enriching the holistic well-being of their patients and fostering a more compassionate and comprehensive approach to healthcare.

The Professional Spiritually Informed Nurse

COURSE DESCRIPTIONS

SCC205: What Every Health Care Professional Needs to Know About Spiritual Care **1 credit**

(No prerequisite required)

Description: This course is for social workers and all health care disciplines, settings, and roles who desire to know more about being a spiritual care generalist within their scope of practice. The course will provide an overview of spirituality and religion, the benefits of spiritual care, spiritual distress, spiritual screening, and spiritual conversations as well as core skills that can improve the interventions that spiritually informed social workers can provide. The benefits of Specialist-level spiritual care will also be explored.

SCC209: Counseling Skills: More Than Listening **1 credit**

(No prerequisite required)

Description: Participants will learn the differences between pastoral and secular counseling, short-term counseling processes appropriate in health care settings, working with traumatic events, family systems, and grief and bereavement.

SCC217: Spirituality and Aging **1 credit**

(No prerequisite required)

Description: This course focuses on understanding and meeting the spiritual care needs of patients who are 65 or older as they experience the aging process. It provides evidence-based knowledge, interventions, and application to empower nurses, social workers, chaplains, and spiritual care providers to integrate spiritual care skills in their daily patient care, regardless of a patient's religion, spirituality, or lack of stated beliefs.
